**'BEST PRACTICES' OF SWAMI VIVEKANANDA MAHAVIDYALAYA,
MOHANPUR, WEST TRIPURA**

Best Practice-I:

1. Title of the Practice: Green Initiatives.

2. The Practice:

- **Optimum paper use:** All college notices are given on the College website and WhatsApp group. The College also encourages duplex printing.
- **Rainwater Harvesting:** Rainwater from the Academic building & the Administrative Building is being harvested.

3. Evidence of Success: The e-academic management system and duplex printing has visibly reduced the use of paper.

4. Problems Encountered and Resources Required: Financial constraints remain the biggest problem for expensive green initiatives like rainwater harvesting. Besides, lack of awareness, inadequate supporting infrastructure, high input costs, and low yields are other issues.

Best Practice II:

1. Title of the Practice: Value Education

2. The Practice: Value Education classes are conducted regularly throughout the academic year in the Vivekananda Study Circle of the College.

3. Evidence of Success: A number of our students have enrolled in social work-related programs. Even while in college, students enroll in the NSS and NCC to actively put into practice the values and zeal they imbibe for life and society through Value Education classes.

4. Problems encountered and Resources Required: The most difficult challenge faced is reaching out to students suffering from social and emotional issues who prove to be resistant to any kind of help.
