Report on
"Field Visit on Vermiculture and Vermicomposting"

Date of event: 8th November, 2023

Place of field visit: College of Agriculture, Lembucherra, Tripura (W)

Guide Teacher: Dr. S.K.S. Jamatia, Course Co-ordinator

No. of students attended: 25

A total of 25 students along attended this one day field Trip on "Vermiculture and Vermicomposting" at College of Agriculture, Lembucherra, Tripura (W) on 8th November 2023. This field trip was conducted as a part of Skill Enhancement Course (SEC-7: Vermiculture and Vermicomposting) under NEP 2020 syllabus.

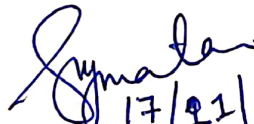

In this field trip, Dr. Niladri Paul, Assistant Professor, Department of Soil Science & Agricultural Chemistry, College of Agriculture was the Resource Person.

Dr. Paul demonstrated that the Vermicompost Unit is a well-established facility dedicated to producing high-quality vermicompost for agricultural and gardening purposes. The Unit utilizes a combination of organic waste materials and red worms (*Eisenia fetida*) to produce nutrient-rich compost through the process of vermicomposting. The farm primarily uses a diverse range of organic waste materials including kitchen scraps, agricultural residues, garden waste, and livestock manure. Once the vermicompost is fully matured, it is sieved to remove any large particles and then packaged into bags or bulk containers. The packaging is labeled with essential information such as nutrient content, application guidelines, and batch numbers. The farm distributes its vermicompost to local farmers, gardeners, and nurseries, promoting sustainable agriculture and soil health.

Overall, this field trip to a vermicompost unit provided students with a hands-on opportunity to learn about sustainable waste management practices and the importance of environmental stewardship. It can inspire them to make positive changes in their own lives and communities.

Report on Special Yoga camp at SVM Mohanpur held from 13th June to 16th June 2023 in association with ICFAI University

Special Yoga camp at SVM Mohanpur held from 13th June to 16th June 2023 in association with ICFAI University was jointly organised by both the institutions where 100 nos of students participated in this programme. Students learnt various aspects of health related issues which can be cured by Yoga.

Dr Mithun Ch. Roy, Asst Professor & Sports Director of ICFAI University & Mrs. Ranjana Sinha, Asst. Professor of ICFAI University were the trainers of the event. Dr Haradhan Saha, Principal of the SVM, Mohanpur has inaugurated the programme where he spoken the benefit of Yoga in modern day's stressful life. He also narrated the issue of employment scope in the field of Yoga & Sports sectors. Sri Debabrata Roy, Associate Professor & Secretary Teachers Council of SVM Mohanpur was also present on the occasion. Dr Manas Das, Asst Professor Dept of Physical education has arranged & coordinated the entire programme. Sri Kaushik Sarkar Guest Faculty has worked hard for successful completion of the programme.

Dr. Manas Das, HOD Deptt of Physical Education, SVM, Mohanpur, has narrated that Yoga provides us with one of the best means of self-Improvement and for tapping ones full potential in life. In the advanced stages of yoga, the super conscious states are attained that emanate feelings of bliss, deep peace and the emergence of psychic powers developed and perfected over the centuries by the philosophers and the mystics of India. Yoga is basically a method for increasing body's supply of energy. It also removes the obstacles that may be blocking the transmission of energy throughout the body. Over a period of thousands of years, yoga has streamlined its methods to fulfil these aims.

There are many things in the world that engender stress in life i.e.w job, money, mortgage, loan, downturn in economy and so on. However, when one learns the ways to deal with stress through yoga and meditation, while still dealing with the problems one is facing. The exercises and practice of yoga will help to deal with stress creating situations but

A Report on Celebration of World Environment Day 2023

Date: 5th June 2023,

***Venue: The ICFAI University Tripura, Kamalghat, West
Tripura***

***Organized by: Faculty of Education, ICFAI University Tripura in Association
with
Swami Vivekananda Mahavidyalaya Mohanpur, West Tripura***

OBJECTIVES:

The main objectives of celebrating this auspicious day are as follows:

- To spread awareness among people about the issues of the **environment**.
- To encourage action among people from different society and communities to actively participate in the **celebration** as well as become an active participant to promote environmental sustainability.
- To explore the theme of this year's World Environment Day.

-

-

- **OUTCOME:**

The outcome of the program aligned with the desired objectives. The active engagement and participation of Faculty members, Guests and students contributed significantly to the meaningful celebration of this day. The program effectively instills a forward-looking mindset in people, fostering a deep sense of responsibility towards the environment.

Introduction:

World Environment Day is the opportunity for everyone to realize the responsibility to care for the Earth and to become agents of change. This year's theme for World Environment Day on 5th June 2023, focused on solutions to plastic pollution under the campaign #Beat Plastic Pollution and was hosted by Cote d'Ivoire in partnership with the Netherlands.

Lightening the lamp by the dignitaries

The ICFAI University Tripura has also organized “The World EnvironmentDay”, on 5th June, 2023 keeping the same objectives in mind.

In this regard, the university has conducted good numbers of Activities. Observing World Environment Day, Faculty of Education conducted different Activities such as Poem / Recitation & Poster, Dance, Singing.

On 5th June, 2023, a program with cultural events organized by **Faculty of Education (FOE), ICFAI University Tripura on World Environment Day** at 12.00 p.m. with chief guests including **Dr. Bishu Karmakar, Member Secretary, Tripura State Pollution Control Board** and **Dr. Chandrani Debbarma, HOD, Department of Geography, Swami Vivekananda Mahavidyalaya Mohanpur**. On this day the whole program was hosted by the students of FOE, IUT and the Swami Vivekananda Mahavidyalaya Mohanpur. Following with a group song, the audience and respected dignitaries were welcomed with a Welcome speech by **Dr. A. Ranganath, Registrar, IUT**. The program preceded with plant watering ceremony, symbolizing our commitment to environmental stewardship. **A Key Note Speech** was given by **Dr. Bishu Karmakar, Member Secretary, Tripura State Pollution Control Board**. Speeches were also delivered by **Dr. Subhasish Chatterjee, academic dean, IUT** and **Honourable Principal Dr. Premshankar Srivastava, FOE**. The event also continued with some more inspiring speeches given by the guest **Dr. Chandrani Debbarma, HOD, Department of Geography, Swami Vivekananda Mahavidyalaya** as well as by **Dr. Swarnali Nath Choudhury, HOD, Department of Chemistry, IUT**. The different activities were performed by the students of IUT like Recitation, Poster Presentation, Dance, Song.

A Vote of Thanks was given by **Prof Laxmisree Thakur, FOE, IUT**. In the end, Tree Plantation program was there. The Trees were planted by **Dr. Prem**

Shankar Srivastava, Principal, FOE, ICFAI University Tripura, Prof. Bheem Pad Mahato, Prof.Laxmisree Thakur and other students also.

13	1:40pm-1:45pm	Vote of Thanks by Prof Laxmisree Thakur, Asst Prof, FOE, IUT
14	4:30 PM	Plantation

- **CONCLUSION:**

The 2023 World Environment Day's campaign #BeatPlasticPollution called for global solutions to combat plastic pollution. This year, just like all the previous celebrations of the World Environment Day, we tried to address the current issues of the environment by reflecting on our past actions and exploring the theme of this year through many inspiring speeches, pledging to reflect on our current actions to sustain our world, our nature. Change can happen only if it is affected at the community level; hence programs are held on World Environment Day that creates community consciousness. World Environment Day is a day for us to inspect the state of our environment. It calls for us to stop in our tracks one day in the year and examine our surroundings. It asks us to pledge, in a small way at least, to do something for the environment.
